About the event

Each year the Forum brings together hundreds of CalFresh stakeholders from across the state to discuss strategies and opportunities to improve the reach and impact of CalFresh. Attendees include national, state and local administrators and advocates, state legislative staff, outreach professionals, researchers and other CalFresh stakeholders.

The 2015 CalFresh Forum will focus on improving the CalFresh customer experience as we look to the future and continue to work toward improving access and participation across the state. This year's program will feature plenary speakers with varied and extensive expertise designing and implementing cutting-edge business processes in both public and private sectors. Presentation topics will include effective use of open data models, open source systems, and trauma-informed customer service to improve program performance for both CalFresh clients and administrators.
