

Support AB 1594 and Support All California Public School Students!

- Extends the needy-student meal requirement to California charter schools.
- Ensures that all low-income California public school students have access to nutritionally balanced, affordable meals on a daily basis.

Please Place Stamp Here

Dear Governor Brown,

I'm writing to ask for your signature on AB 1594 (Eng) *Improving Charter School Nutrition*. As the number of charter schools across California continues to grow so does the number of low-income students who may or may not have access to these essential nutrition benefits. AB 1594 supports access to free and reduced-price meals by all low-income students, regardless of whether they attend a traditional public school or charter school. Families should not have to make the choice to leave such a critical resource behind when considering their child's educational needs.

I ask that in 2012 you support improved access to school meals by all low-income students by signing AB 1594.

Sincerely,

(Address)
